

You can focus on your business – we'll handle the rest

Hellmann eCommerce is your competent partner for the development, enhancement, and reorientation of your online business. Logistically and technologically, we develop complete solutions for your online business. Our services are modular, flexible, and expandable at any time. And above all, they are from a single source and can be individually combined for you. Your goal is our project!

- ✓ Webshop development based on Shopware 6 or Magento 2
- ✓ Order management system with our self-developed, established Middleware System
- ✓ Efficient inventory management with Hellmann Contract Logistics as an internal partner
- ✓ Cooperation with all leading parcel service providers for the distribution of your consignments
- ✓ Financial service – accounts receivable management for the entire payment process including payment request management, final demands, and debt collection fees
- ✓ Customer service – at arranged times via the usual contact channels
